Gen. B. S. Alexander, Col. Stewart, and Lieut. Weeden, of the U.S. Engineer Corps, arrived here this morning on the Orizaba. It is understood that before leaving they will make the necessary surveys and plans for the turning of the San Diego river into False Bay.

A Mr. Woods of Los Angeles county is removing his band of sheep to the neighborhood of Campo, on account of pasturage, and a great many sheep of that county have gone North for the same reason. There seems to be a scarcity of feed in Los Angeles county for sheep.

The case of the people against Babb, charged with shooting Mr. Fisher, was given to the jury yesterday afternoon. In a short time they returned with a verdict of acquittal, and were out on the street by 6 o'clock. Mr. Hotchkiss for the people and W. Jeff Gatewood and N. H. Conklin for the accused.

The District Court to-day was engaged in trying the case of Antonio Jose Rocha et al. vs. Henry Hancock et al. For the plaintiffs, Messrs. Howard, Hartman and Haley of Los Angeles, appear. For the defendants, Hancock, Chase & Leach and Gatewood. There are enough "haiches" in that team to turn the 'ouse hupside down,

(From the World, 20th.) San Diego planing mill is again idle for some reason. Out of lumber, perhaps.

We are gratified to announce that Mrs. Gatewood was much better this morning.

There were two passengers and a dog in the Yuma stage yesterday afternoon. It was a nice dorg. The San Diego gold bank, at Los Angeles, will soon be ready for business in the brick and mortar line. The gold line will come in a little later.

Santa Barbara Items.

[From the Press, 20th.] There arrived yesterday afternoon by the steamer Orizaba a number of game birds, among which we saw several grouse, golden pheasants, Japanese and English pheasants. We understand that they are to be let loose on Santa Cruz island, and there is every reasonable hope that they will

thrive well and increase. At the unseasonable hour of one minute to four o'clock this morning Santa Barbara was honored with rather unceremonious rapping at all her doors by another earthquake.

Plea for the Stage.

Rev. Mr. SHIPMAN, of Lexington,

Ky., has delivered an able discourse

in defence of theatres and in opposi-

ficient if there were no other. But

TALMAGE, SHIPMAN and all recent

writers on this subject seem to have

overlooked the fact that the stage

originated among the devotees of re-

ligion, and for the noble purpose of

teaching the people. In the absence

of books it was found to be the most

successful way of imparting informa-

tion to the masses. Like all other

blessings it has often been used for

bad purposes; but we venture to say

lessons taught upon the stage as from

the pulpit. Indeed, all our modern

pulpit lessons were originally pre-

sented upon the stage. And it is the

opinion of many of the best thinkers

of this age that if the churches would

erect theatres for the purpose of pre-

senting moral subjects upon the stage

the lessons would be far more effective

and lasting than those received from

the pulpit. To make the stage as use-

ful to mankind as it ought to be it is

to take hold of it. Recreation in re-

ligion is what the churches need. The

youth of the world are disgusted with

the long-faced, broad-brimmed chris-

tianity of the present day. They are

vivacious, full of life and cheerfulness,

and are not willing to be chained

down to a stale old fogy gait through

Bible, and to the good of the race.

Religion is a broad principle of char-

ity and good-will to men, and those

who possess it manifest it by making

everybody happy to the extent of their

ability. All innocent amusements

should be made the hand-maids of re-

ing it over his veto.

Worthy of Consideration.

The following extract from an editorial in the columns of our cotemporary, the Evening Express, is in accord with the sentiments of the HER-

For two years the attractions of Los Angeles have been dwelt upon in the Los Angeles press, and undoubtedly most of the phenompress, and undoubtedly most of the phenomenal settlement now witnessed here is due to their efforts. They were allowed to go on with their good work unmolested until the upcountry press began to notice that, of the tide of immigration which has been setting in so strongly towards California during that period, we are getting the lion's share of the better class of immigrants. Then they wakened up to a malignant energy, and for months they have been devoting themselves to a wholesale depreciation of Los Angeles county, some of them cunningly, and others audaciously and impudently. As influences, owing to this crusade, are now militating against Los Ancrusade, are now militating against Los Angeles which did not enter into the count originally, our people must make an energetic effort to counteract them. This can best be done by circulating large numbers of the Los tion to the theory of Dr. Talmage, of Brooklyn. Mr. Shipman defends the theatre upon the ground of innocent recreation alone. This defence is suftising Los Angeles extensively. The Chamber of Commerce and our wealthiest citizens, working together, should be able without difficulty to raise a sum sufficient to buy a thousand copies weekly of each of the different journals published in Los Angeles.

Still Another Libel.

We have before us an article cut

from the St. Paul Daily Dispatch, in

which California is roundly and

soundly abused. On the authority of

the Atchison (Kansas) Champion the

writer asserts that during the month

of March 9,300 persons passed Kear-

ney Junction bound for San Fran-

had expended their last dollar for the

railroad ticket on which they were

traveling. To this the writer adds

We had a run around town on Thursday. After taking the back we dismissed dull care and went off at the rate of eight knots an hour with our faces to the sea. The atmosphere was balmy and the scenery delightful. A drive of one hour and fifteen minutes over one of the most lovely roads we ever saw brought us to our beautiful Summer resort and what is to be our future shipping point-Santa Monica. The aspect of things there have changed wonderfully within the last twelve months. When we visited this place one year ago everything was calm and serene except the gentle rolling of the sea. Now everything seems to be in motion. Thirty teams and drivors all at work, the steam pile-driver and operatives as busy as bees, a beautiful ship riding at anchor just beyond the end of the new wharf, a new hotel standing on the bluff with all its inmates stirring around, all presented a scene in such striking contrast with what we saw twelve months ago that we stood and gazed with astonishment. The new wharf is progressing rapidly and the grading for the roads and warehouse is nearly completed. When the iron and ties arrive we will have another railroad to connect our city with the sea before we can realize it. We see the Santa Monica Land Company have been at work. They have driven a thousand pegs on a beautiful plot of ground on the Southeast side of the railroad and running out to the sea, only two hundred steps below or East of the wharf. When they put these lots in market they will soon find a purchaser for every one of them. There are not many citizens in Los Angeles who will not want a lot there to build a cottage for Summer retreat, and there is no more convenient and beautiful plot of ground than this company owns. We came back home feeling that the surroundings as well as the future of Los Angeles is grand.

#### Earthquake at Santa Barbara.

At about eight minutes before eight o'clock last evening there was quite a sharp earthquake shock felt in Santa Barbara by such persons as were sitting in the house. We have inquired of about twenty of our business houses and find the impression almost entirely unanimous that the direction was from the North to the South, or from the Inyo region to the ocean. The motion was only slightly lateral, and chiefly undulating. Weights on scales and hanging lamps gave the direction of the wave. Two or three shocks in very rapid succession could be distinguished. The motion was much like that produced by the passage of a huge truck, heavily laden, over a rough cobblestone street. Several persons who were outdoor at the time, heard a distinct roaring noise from the North, and as they turned their heads to see what it might mean they felt the shock and a moment ously affect California. The truth is afterward heard a quick, explosive sound at sea. No damage done .-

#### Anaheim News.

It was an enjoyable affair-the picnic Wednesday of the members and friends of the Episcopal society-and the stranger within their gates was made very welcome, it being his own fault if he did not have a good time. The gathering was held in the grounds about the residence of Mr. Neales, the pastor, and about sixty persons partook of the good things prepared by the ladies under the shade of the fine trees growing there. This society should have the hearty cooperation of all friends of a moral and religious community in their efforts to build a suitable place of worship, and it is to be hoped the solid men of Anaheim will respond generously to all appeals for that purpose.

A cold chill ran over us yesterday on perusal of an invitation to attend the Calico party. It read: "Gentlemen will appear in calico neckties." Weather permitting, we will go, even if it takes the sacrifice of the rest of our wardrobe to get the necessary calico necktie.

#### Captain Fake, of the Ventura.

In a communication directed to their agent here, Mr. H. McLellan, the Messrs. Goodall, Nelson & Perkins contradict the item which has gone the rounds of the press to the effect that the license of Capt. Fake had been revoked. They call attention to the fact that it is a usage in such cases to "break" an officer, who has lost a ship, for a period of six months. "Breaking," in such cases, is merely equivalent to suspension, and is dealt out to the captain even where his efforts have been meritorious. Messrs. G., N. & P. say that the statement that the Board before whom Captain Fake had been called had convicted that gentleman of negligence is premature,

as they, even, have not yet been made acquainted with its findings. We do not wish to see Captain Fake driven out of the merchant service, but if the public suspicions are correct he should be. It is no gratifying assurance to the travelling public to know that there is such delay in his case. They breathed more easily when they supposed his commission had been promptly revoked.

#### Grasshopper Plague Denied.

Gov. T. A. Osborn, of Kansas, who arrived in San Francisco direct from Topeka last Sunday evening, informs the Bulletin that the telegrams pubished from Chicago, to the effect that grasshoppers are already becoming troublesome in Missouri, Kansas, Nebraska and other Western States, are not altogether true. That so far as Kansas is concerned, some two weeks since some grasshoppers were hatched SIX MILES FROM LOS ANGELES, out down in the Southeastern corner of that State, near Fort Scott, but that a cold rain set in and continued for two days, which had the effect of killthroughout a small area of country and that there is no fear whatever that anything like the plague of last year will be witnessed the coming season, and that in Nebraska the same state of affairs exists. Another fortunate circumstance is that the weather has not been of such a mild character thus far this Spring as to encourage the growth or maintenance of the lively insect.

Gov. Osborn of course desires to put Kansas in a favorable light before the public, but Kansas people well know that cold rains, thaws and frosts are only little inconveniences to the pests and do not kill them. We have seen an experiment tried which illustrates this: Grasshoppers' eggs have been hatched out in a warm oven, the hop-pers were put in a bottle and exposed at night where they would freeze hard, so that in the morning they rattled like gravel stones, and then after another thaw they would hop around and devour vegetation with unimpaired appetite. The Governor of Missouri does not agree with the Governor of Kansas, and calls for Divine help; but then Gov. Osborn never was much on the pious lay.

states: From every precinct in the county we are getting the most cheering evidence that the leading citizens and intelligent voters of all parties are accepting the programme of the People's Independent party.

At a meeting of the Democratic Central Committee of Napa City, the following gentlemen were elected delegates to the State, Congressional and Judicial Conventions, to be held in San Francisco, June 29th: G. N. Cornwell, S. H. Buford, J. M. Mayfield, A. Safely and Wm. Fleming.

The following is from the San Jose Mercury: Senator Booth is, if possible, a greater favorite in San Francisco than he is in his home at Sacramento. He has had larger and more appreciative audiences in that city than any public man of recent times. No doubt the charm of his eloquence has had something to do with it. But the main stimulus is to hear a man who has exhibited so rare a fidelity to the public interests and whose official acts are tinged with the representative character so frequently abjured nowadays.

### Anaheim Items.

[From the Anaheim Gazette.] The sheep-men of this vicinity complain of the damage done to their pastures by passing flocks. A man, whose name we were unable

to learn, had his toes crushed by a hay press on Wednesday, near town. A couple of Russians are about to open a laundry.

Harvest will commence at Fairview on Monday.

As yet nothing has been done with the vessel wrecked at Newport. It is considered impossible to remove her, except in pieces.

The Coast Line Stage Company will in about eight days put on a line of four-horse wagons between this place and San Diego.
